

JUDGE CRAIG IN RACE TO SUCCEED MANUEL U. VIGIL

Police Judge Shies His Hat in Ring and Will Be in Fight to Finish; Other Candidates Expected Soon.

The first definite announcement for any local office in Bernalillo county was made yesterday when Judge George R. Craig, justice of the peace for precinct No. 24 of Bernalillo county and for several years police judge of the city of Albuquerque, let it be known that he would ask the republican voters of the Second judicial district to nominate him as a candidate for district attorney to succeed Manuel U. Vigil, whose term will expire this year.

The announcement was not unexpected, for it has been known for several days that Judge Craig was making a quiet canvass and that he was receiving much encouragement from three republican voters of Bernalillo county. It is understood also that his candidacy has met with a generous response in both McKinley and Sandoval, the other two counties comprising this district.

Self-made Man.
Judge Craig is essentially a self-made man in the best sense of the term. Born in Massachusetts, he first came to New Mexico when only a child, receiving his early education in this city. Later he moved with his

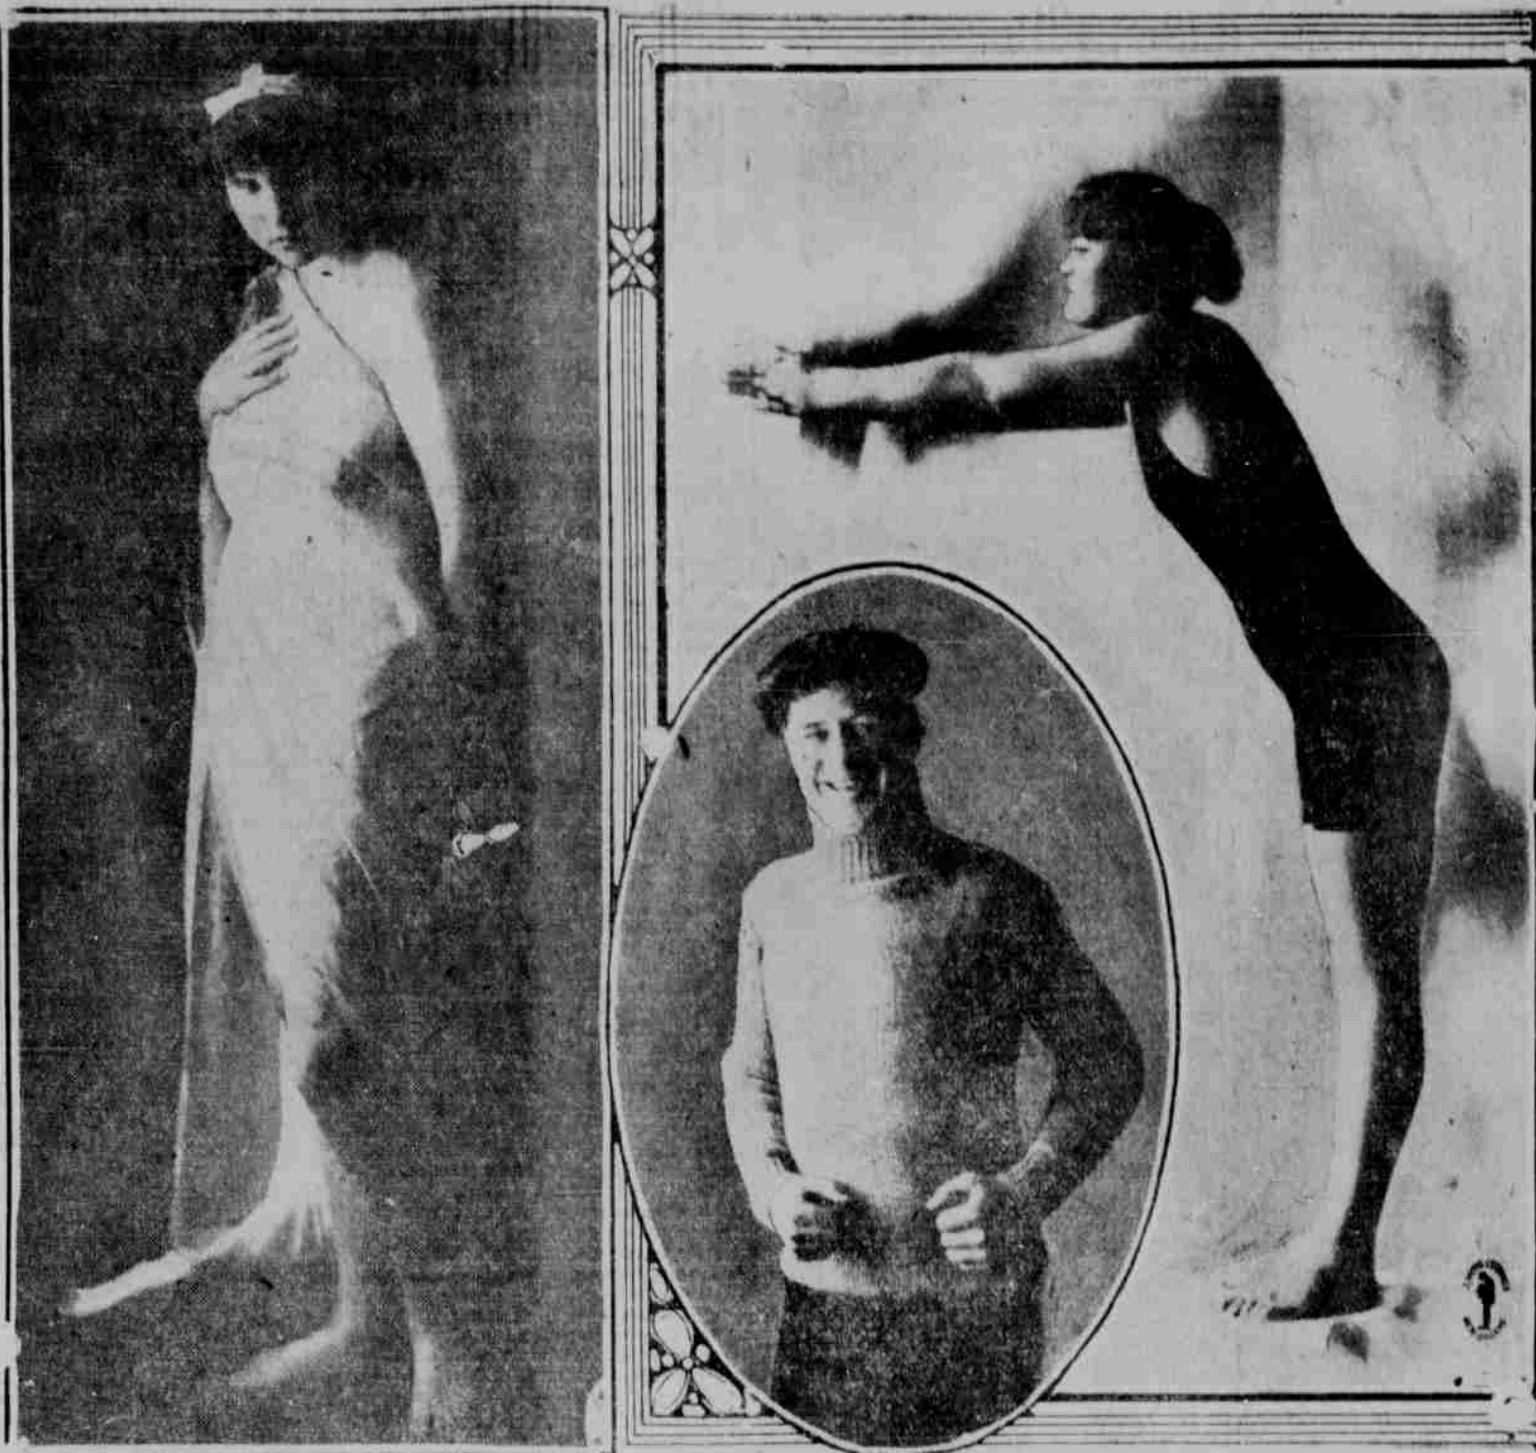

Notes of Interest From State Museum

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Feb. 11.—B. Shiley, editor and manager of the Republican Era at Albuquerque, N. M., writes the museum for lantern slides and postcards of the Palace of the Governors, the cliff dwellings and landmarks of Santa Fe to be used in lectures before lodges. Thirteen years ago Shiley was city editor of the Daily New Mexican.

"Centennial Rabbits in Relation to Trees and Ferns," is the latest monograph to be added to the library of the museum and while it seems a far cry from rabbits to archaeology, yet it may prove of interest to some one fighting the rabbit pest.

The proposal to change the name of the New Mexico Archaeological society to the Archaeological League of New Mexico, which will come up at tomorrow evening's meeting of the society and of the Archaeological institute at the old palace tomorrow evening, meets with much favor by those who have discussed it. The Southwest society at its annual meeting at Los Angeles this week, reaffirmed its interest in the School of American Archaeology at Santa Fe, and elected as its secretary Charles F. Lummis, a member of the managing committee of the school. M. A. Homburger, the millionaire merchant prince, was elected president. General Harrison Gray Otis, the country old editor and principal owner of the Los Angeles Times, vice president, together with Dr. Norman Pringle, a famous scientist and millionaire, Major E. W. Jones and H. W. McIlvaine, also foremost among the Los Angeles citizenry. Stanford Jess, president of the First National bank of Los Angeles, was elected treasurer.

The following registered at the museum: Mr. and Mrs. Clark Allen, Medina, N. Y.; George E. Apple, Pan-

"Texas," the Gentlemanly Gorilla, and Tivo of his Physical Culture Models. One of Whom, Miss Lillian Stewart, Appears With Him at the Crystal Theatre for Two Days, Commencing Today.

NEWS NOTES from BY DAISY DEAN MOVIELAND

"Fighting Blood" is the title of a Fox feature picture in which William Farnum will appear soon. In this picture Farnum is shown as a lion-hunter, who later becomes a millionaire, two-fisted, fighting paragon with his former companions as members of his flock. It is the kind of character in which Mr. Farnum is seen at his best. The play was inspired in part by the novel "My Old Kentucky Home."

MARGUERITE COURTOT IN "THE DEAD ALIVE"
"The Dead Alive" is the name of the Mutual Masterpiece, de luxe edition, in which Miss Marguerite Courtot begins her engagement as a Gaumont star. It tells the stories of twin sisters, both parts being played by the same star. One is the wife of a young millionaire, and the other is a stage beauty who falls under the hypnotic influence of an international crook. "The Dead Alive" will be released February 17.

KALEM COMEDIAN IS ON THE JOB AGAIN
The return of Ham, the Kalem comedian, to pictures after three months in the hospital is signified by a rapid-fire comedy entitled "Ham Takes a Chance." Ham and Bud get jobs in Prof. Nonpareil's road show. Bud's job is to excite Ethel's snakes, while Ham becomes the assistant of Prof. Nonpareil, a knife-throwing artist. When the professor is taken ill, Ham takes his place, while he makes Bud the target. Ham is a wizard at throwing the glistering steel—fortunately for Bud. There isn't a laughing moment in this reel. This picture is released February 15.

Dawn Blinn is the only movie without a pair of fire-tipped shoes. She has no other explanation, then that she does not care for them. "Eyes as a child," she says, "the neighbors spoke of me as a strange girl."

Blanche Sweet is having the time of her life as the young anarchist in "The Blacklist," now being produced under the direction of William C. de Mille. Miss Sweet, in this production,

William Farnum.

William Farnum began his stage career playing a cornet solo at Emory Hall, Bangor, Maine, when he was nine years old. Before entering movie pictures he made a big name for himself on the legitimate stage.

Ham, is seen in a role entirely different from anything she has heretofore attempted.

Sydney Mason, who is featured in support of Miss Marguerite Courtot, plays the part of a young millionaire in "The Dead Alive."

PENITENTIARY REPORT INTERESTING DOCUMENT

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Feb. 11.—The annual report of the board of penitentiary commissioners and superintendent of the penitentiary, J. B. McManus, came from press today. While not as voluminous as similar reports from as large institutions, an excellent showing is made, financially and otherwise. The penologist will find in the report interesting material for comparisons and deductions. Superintendent McManus also seems to have solved the high cost of living proposition, for judging from the menus he prints the cost of less than 20 cents a day for three meals seems preposterously small. It costs the state 46.7 cents per prisoner a day to maintain the institution or less than \$2.50 per week.

Almost one-third of the inmates are doing time for murder. Horse-thieves lead among those convicted to crimes against property for they number 36, burglars number 26, cow thieves 22, forgers 21, ordinaries 13, those serving time for criminal assault are 22, assault with deadly weapon 15, manslaughter 6, embezzlement 6, selling liquor to Indians 3, robbery 2.

There are 175 natives of New Mexico in the pen, 67 natives of Mexico, 22 Texans and 19 Kentuckians. Other states and countries each furnished less than 9. Canada has four inmates and there is not a single native of Germany in the pen. England, France, Ireland, Norway, Scotland, Spain and the West Indies each furnished one convict.

EXPERIMENT STATION HAS NEW OFFICIAL

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
State College, N. M., Feb. 11.—As one of the latest additions to the experiment station force at the New Mexico State college, Mr. R. V. Thompson, a graduate of the Oregon Agricultural college, has been called from the Oregon college in the spring of 1915, and since that time has had much practical experience at the experiment station at the same institution. During the past year, Mr. Thompson had charge of the poultry exhibit from Oregon at the Panama-Pacific exposition. His White Leghorns and other birds took a number of blue ribbons.

Mr. Thompson's work here will be mostly in the station. He will build up the department and do work over the state in an attempt to place the ten per cent of the chief assets of the farmers of New Mexico.

KEEPS WORD OF HONOR GIVEN TO JUDGE; GOES ALONE TO SPRINGER

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Springer, N. M., Feb. 11.—An accident occurred at the New Mexico boys reform school here yesterday that the authorities declare to be unprecedented in the history of the local institution, and probably of the entire state.

A 17-year-old youth of Silver City presented himself unattended at the office of the school superintendent and asked to be admitted as an inmate of the institution. He presented a letter from Hon. Colin Neidhart, judge of the Sixth district court, saying that the boy had promised him on his honor to report himself at the school for incarceration. He also had with him the official commitment sentencing him for a period of one year.

The boy was sentenced for being unruly and, and seems very intelligent for a youth of his age. He seems to have come with the proper attitude towards the school and says that he wants to improve his time during his sojourn here so that when he returns to his people he will be a useful member of society.

But the fact that he came all the way from Silver City to enter what to a youth might seem a prison life, all unattended by any officer of the law is unique, and Judge Neidhart should feel elated that his estimate of the boy and his confidence in him have been so well justified.

Bentley Gets New Trial.
East Las Vegas, N. M., Feb. 11.—Stanford S. Bentley, convicted of larceny of cattle at the fall term of court for Mora county has been granted a new trial by Judge David J. Leahy. Bentley is a ranchman and it is said the evidence on which he was convicted was not strong, the intent to kidnap a cattle not being well brought out. Hyndley Montano and George Maestas, who were arraigned on a charge of stealing a cow near Rio, Mora county, pleaded guilty and were sentenced to not less than one year nor more than fifteen months in the state penitentiary.

RUN DOWN IN HEALTH

Asheville, N. C.—Mrs. Della Buckner, of R. F. D. 5, this place, writes: "Last winter I got so very bad off and so terribly run-down in health that I was worried about myself. I had great weakness, back and headache, and suffered terrible pains in my abdomen. I could not sleep four and five nights at a time and I couldn't sit up. I was almost at death's door. Dr. said he didn't think I'd be strong again unless I should have the operation."

One of my neighbors suggested my taking Carbol, and after taking the first bottle I was better. After the second, I was able to do my washing, though I had not been before, and was feeling along fine all winter, in better health and felt better than I had for six years, and had taken five or six bottles and was a well woman."

It's the best medicine that was ever made for women. I tell my neighbors about it and they try it and when they do, they all acknowledge that it does them more good than anything."

If you suffer from any of the ailments so common to women, try Carbol, the woman's tonic. For sale by all druggists.

DEBATERS CHOSEN BY STATE COLLEGE FOR CONTEST IN MARCH

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
State College, N. M., Feb. 11.—The department of English has selected Edward Wharton, Casper Rex and Richard Buysen to represent the New Mexico State college in the intercollegiate debate with the state university this year. The debate will be held in Albuquerque on March 4 or 5, when the college will uphold the negative side of the question, "Resolved: That the federal and state laws providing for compulsory arbitration are essential to the adjustment of disputes between employers and employees."

All of the above debaters are members of the junior class, two of them, Wharton and Buysen, being members of the famous freshmen team which represented the college in 1914. All are experienced in debate and oratory, and are expected to claim the honors following the contest in March.

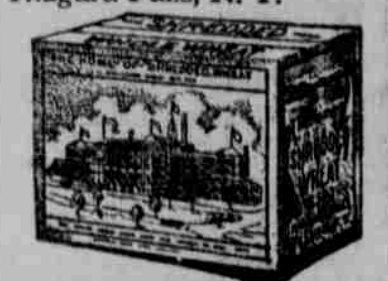

Zingg Escapes; Is Recaptured.

East Las Vegas, N. M., Feb. 11.—It became known here today that O. C. Zingg, until last November president of the Spanish-American normal school at El Rito, escaped recently from the New Mexico hospital for the insane. He was picked up by two telephone linemen in an automobile and returned to the hospital. Zingg's condition is said to have improved greatly since his commitment several months ago.

Disastrous Fire at Mogollon.

Mogollon, N. M., Feb. 11.—While thawing out a barrel of oil for use in the smoking room at the Socorro hotel, the oil became ignited and the fire spread immediately. Though employees at once resorted to fire extinguishers and brought into play the fire fighting apparatus, the blaze raged for several hours and caused damage to the mill of approximately \$1,000 before brought under control.

A Million Mothers behind the purest, cleanest, most nutritious of all cereal foods—Shredded Wheat. They have tested it and found it best for youngsters, best for grown-ups—a food to work on, to play on, to think on. Contains the life of the wheat in a digestible form—puts gimp and ginger into the jaded body. Delicious for breakfast or for any meal with milk or cream. Made at Niagara Falls, N. Y.
